REIMAGINING SKILL INDIA PERSPECTIVES AND WAY FORWARD

Kundan Kumar, Sakshi Khurana & Oshin Dharap

Skill development has been a policy priority for the Government and a vast range of initiatives have been launched in recent years with the objective to skill a large number of youth to make them employable. Recognizing the need for coordination and streamlining of skill development efforts across the country, the Ministry of Skill Development and Entrepreneurship (MSDE) was set-up in 2014. A more comprehensive National Policy for Skill Development and Entrepreneurship (NPSDE) was launched in 2015 which superseded the NPSD 2009. NPSDE 2015 set the tone for the skilling framework in the country by providing the broad policy contours for 'Skilling with Scale, Speed and Standards.'

NPSDE 2015 estimated that the average age of the population in India by 2020 would be 29 years, vis-a-vis 40 years in the US, 46 in Europe

and 47 in Japan. This provided an important opportunity for India to convert its demographic potential into a demographic dividend and become the Skill Capital of the world by creating a qualified and skilled workforce. However, this required addressing two important challenges: (i) creating progression pathways for students and prospective job market entrants to acquire employable skills and pursue lifelong learning, and (ii) generating opportunities for reskilling and upskilling of existing workforce, both formal and informal.

The Skill India Mission was launched by MSDE to address these challenges and achieve the objectives articulated in the NPSDE 2015. Under the ambit of the Skill India Mission, over 5.56 crore persons have been provided skill training since 2015 through various schemes such as the Pradhan Mantri Kaushal Vikas Yojana (PMKVY), Jan Shikshan Sansthan (JSS), National Apprenticeship Promo-

tion Scheme (NAPS), Craftsman Training Scheme (CTS) through Industrial Training Institutes (ITIs) and other skill development schemes/programmes across 20 Central Ministries/Departments. (PIB, 23rd March 2022, MSDE) The flagship PMKVY, which was launched in 2015 with a budget of Rs. 12,000 crore has managed to provide skill training to over 1.35 crore persons till date. (PMKVY dashboard as on 4th May 2022). Under the Craftsman Training Scheme through ITIs, over 64 lakh candidates have been provided

long-term skill training between 2015 and 2021. (PIB, 19th July 2021, MSDE) SANKALP (Skills Acquisition and Knowledge Awareness for Livelihood Promotion) is a World Bank assisted, Centrally sponsored scheme of MSDE, launched in 2018. The objectives of SANKALP are to strengthen the institutional framework and delivery of the short-term skill ecosystem in India, address issues of quality of skilling and include marginalized sections in skill development programmes. Skills Strengthening for Industrial Value Enhancement (STRIVE) is a World Bank financed project that was launched in 2017. STRIVE aims to improve access to quality and market-driven skill training provided in ITIs and apprenticeships.

While a remarkable achievement has been made through skilling a large number of persons through the wide range of initiatives that have been undertaken, the current challenges indicate the need to rethink

the policy framework for skill development. Rapid technological advancements, the Covid-19 pandemic and volatility of the market are continuously transforming the world of work. While India's huge youth population represents a tremendous opportunity, youth employability remains a challenge. Employers and industry representatives have voiced their concerns regarding lack of trained labour in specific sectors and low productivity of workforce. India Skills Report 2022 also noted that only 48.7% of the Indian youth were employable.

Moreover, in the coming decades, the growth and size of the working-age population will differ across States, with a decline in 11 out of the 22 major States during 2031-41, including in the Southern States, Punjab, Maharashtra, West Bengal and Himachal Pradesh. Meanwhile, States that lag behind in the demographic transition, such as Bihar, Uttar Pradesh, Madhya

BIOTECHNOLOGY SECTOR DRIVING GROWTH, CREATING JOBS

Ankita

Biotechnology entrepreneurs are developing game-changing innovations that will transform the way we heal, fuel, and feed the world. As more of these groundbreaking innovations come to market, they will not only provide enormous societal benefits, but will also serve as a growth engine for our economy.

Biotechnology, globally recognized as a rapidly emerging and far-reaching technology, is aptly described as the "technology of hope" for its promise of food, health and environmental sustainability. The recent and continuing advances in life sciences clearly unfold a scenario energized and driven by the new tools of biotechnology. There are a large number of therapeutic biotech drugs and vaccines that are currently being marketed, accounting for a US\$40 billion market and benefiting over a hundred million people worldwide. Hundreds more are in the development

stage. In addition to these, there are a large number of agri-biotech and industrial biotech products that have enormously helped mankind.

India's Share in Biotech

India is among the top 12 destinations for biotechnology globally and third largest in the Asia Pacific region. In 2020, the Indian Biotech industry reached a market size of US\$70.2 billion, growing by 12.3% as compared to the previous year. The bioeconomy has observed almost a 95% increase in valuation over the last five years, with COVID-19 pandemic

boosting it even further. The Indian biotechnology industry amounted to US\$ 63 billion in 2019 and is forecast to reach US\$ 150 billion by 2025, with a CAGR of 16.4%. By 2025, the contribution of the Indian biotechnology industry in the global biotechnology market is expected to grow to 19% from 3% in 2017. The sector is also making an increasing contribu-

tion towards national GDP and is a key part of India's vision of reaching a US\$ 5 trillion economy by 2024.

The growth can be attributed to a range of positive trends such as growing demand for healthcare services, increased demand for food & nutrition, intensive R&D activities and strong government initiatives. Presently, key drivers for growth in the biotech sector are increasing investments, outsourcing activities, exports and the government's focus on the sector. 100% Foreign Direct Investment (FDI) is allowed under the automatic route for Greenfield pharma. 100% Foreign Direct Investment (FDI) is allowed under the government route for Brownfield pharma if upto 74% FDI is under automatic

REIMAGINING SKILL INDIA ...

Pradesh and Rajasthan, will witness a rise in their working-age population through 2041 and continue to meet the labour shortage in the former States. This will demand a migrant inclusive approach to skill development in the destination States to ensure their smooth integration in the labour market.

A reshaping of skilling strategies is a policy imperative to ensure that relevant skills are imparted to the workforce to improve their employability and productivity. As a part of the Government's initiative towards 'Reimagining Skill India Post Budget 2.0' suggestions have been invited to reinvent India's skilling landscape. Innovative programmes and policy interventions backed by concerted efforts from different stakeholders are required to prepare the workforce for future skill demands in the economy. We go on to elaborate recommendations for reinventing India's skilling landscape for 'Reimagining Skill India.'

Pathways for Vertical & Horizontal Mobility

The National Education Policy (NEP) 2020 accords high priority to vocational education and addresses the issue of lack of vertical and horizontal mobility in the vocational education pathway through a credit and academic equivalence framework that can enable students to progress horizontally as well as vertically in their academic and career path. Countries like Germany, Switzerland and South Korea have well-established pathways for individuals to transition from vocational education to academic education. Integration of vocational education with mainstream academic education and developing pathways for academic equivalence will be critical for reshaping the skilling landscape in India.

The nearly 15,000 Industrial Training Institutes (ITIs), the mainstay of India's long-term skilling framework, provide skill training in over 130 trades to lakhs of students every year. Programmes like PMKVY, DDUGKY and Jan Shikshan Sansthan provide short duration courses. For skill training to become aspirational for the youth, it is important that all long-term and short-term training courses offer academic equivalence and pathways for candidates to upgrade their skill and qualification levels. For instance, if a candidate has pursued a course with National Skill Qualification Framework (NSQF) level 3 or 4, he or she should be able to upgrade the skill level with avenues to pursue a course in the NSQF level 5. A candidate should also have avenues to transition to academic education from vocational education and vice-versa. The creation and operationalization of this integrated approach by crafting clear progression pathways for students through a unified credit system will be important.

ITIs have been the backbone of India's skill training ecosystem. At present, students

pursuing ITI courses pursue academic courses separately through options such as the National Institute of Open Schooling to obtain a certificate equivalent to 10th or 12th grades. Academic education should be built into the courses offered by ITIs so that students are offered 10th and 12th grade certificates as part of the course that they opt for in the ITI. State Directorate of Training and Technical Education looking after the ITIs can be turned into Deemed Universities and allowed to offer their own diploma certificates. These initiatives that align skill training with academic education and offer clear pathways for upgrading qualifications will go a long way in making vocational education aspirational in India.

Skilling for New & Emerging Sectors and Lifelong Learning Opportunities

The Production Linked Incentive (PLI) Scheme for 13 key sectors, launched with the objective to boost domestic manufacturing in sunrise and strategic sectors holds potential for job creation of youth. Other sectors with potential for job creation include care services and the gig and platform sector. The care services sector that includes health, education and other personal care services is a labour-intensive sector which has witnessed greater demand during the Covid-19 pandemic. Immense opportunities have opened up in the gig and platform sector as various platforms have emerged in recent years offering innovative solutions in different sectors such as retail, transport, personal and home care services etc. The sector offers opportunities for workers with varying levels and range of skill-sets. Targeted skilling strategies can help take advantage of these emerging opportunities in the economy.

Special emphasis should also be placed on skilling for the emerging sectors such as the renewable energy sector and 4th Industrial Revolution (IR) technologies like artificial intelligence, internet of things, big data analytics and machine learning. 4th IR technologies and the green transition is likely to lead to the loss of certain job roles and creation of new ones, and a smooth transition will require upskilling in industries undergoing small-scale disruption, providing new skills for new jobs in new sectors and reskilling workers. A World Economic Forum-PWC report from January 2021 revealed that investment in upskilling could potentially boost the global economy by \$6.5 trillion by 2030, and India's economy by \$570 billion.

To prepare workers to take on opportunities in new and emerging sectors, skill training institutes viz. ITIs and Pradhan Mantri Kaushal Kendras (PMKVs) need to develop as centers that impart state-of-the-art training in future skills and emerging opportunities. Since government resources may not be adequate

for imparting such training at scale, stronger industry partnerships for greater investments, developing of course curriculum in future skills and apprenticeships that can prepare workers to take on such roles would be critical. The PLI scheme may be reoriented to include a skill training component. PLI industries can be incentivized through one-time capital grants to set up skill training centres in their respective industrial corridors/clusters. These skill centres can come up as co-ownership models with state-of-the-art infra-structure and facilities to train the youth with a strong industry connect, both for supporting latest training facilities and also opportunities for on-the-job trainings in their industries. Success of such initiatives may encourage other industry clusters and establishments to invest in and set up their own skill training centres.

Digital & Online Skilling

While digital technologies such as online learning platforms have reshaped the design and delivery of teaching and learning programmes, the Covid-19 pandemic has accelerated the uptake of remote learning, working and earning opportunities. The skills gap in India, the Covid-19 pandemic and the rapid proliferation of digital technologies all represent a collective opportunity to deliberate skill development strategies and create a talent pool of skilled workers. Skilling through digital means can facilitate the acquisition of technical, transferable and digital skills, thereby improving the employability and adaptability of beneficiaries to the changing world of work. This is especially true of sectors such as IT, health care, digital marketing, media and entertainment, etc. Digital skilling can involve a combination of interactive webinars, downloadable training videos, and demonstrations. Social media platforms such as WhatsApp, Instagram and YouTube can supplement all the above for discussions, virtual meetings and knowledge sharing sessions.

Promoting Apprenticeships for Better Skilling Outcomes

Apprenticeships are a popular and effective way of enabling the youth to acquire practical, hands-on training to boost their employability and access to jobs while at the same time, addressing the needs of firms to have skilled workers. Apprenticeship training has been a priority for the Government and needs to be given greater emphasis by all stakeholders including industries and establishments. NPSDE 2015 emphasized apprenticeship training and work-based-learning and the Apprentices Act, 1961 has undergone several amendments over time to make it more appealing and flexible to the dynamic needs of the industry and the youth. The National Apprenticeship Promotion Scheme (NAPS) was launched in 2016 and over 7.5 lakh youth have been trained across industries under NAPS (PIB, 3rd

November 2021, MSDE). India faces a massive shortage of skilled workers, but India's firms are mostly small enterprises that don't possess the financial wherewithal or expertise to offer high-level skill training or apprenticeships to employees or apprentices. Therefore, government support for apprenticeship should be targeted with more focus on MSMEs and women apprenticeship. A uniform pay scale for apprenticeship stipends will put MSMEs at a more level playing field with big companies that often offer higher stipends to apprentices. Apprenticeships can be made more attractive/aspirational to the youth through decent work conditions, job links and vertical career progression routes post training, and opportunities for up-skilling. India is among the few countries to have an online apprenticeship management system. Making this apprenticeship management system more effective and streamlined through simplification of processes and reduction of compliance burden can encourage more firms, establishments and apprentices to join the apprenticeship programme.

Skill Development for Women & Girls

Under the Skill India Mission, MSDE through its various schemes such as Pradhan Mantri Kaushal Vikas Yojana (PMKVY), National Apprenticeship Promotion Scheme (NAPS), Jan Shikshan Sansthan (JSS), Craftsmanship Training Scheme (CTS) and Craft Instructor Training Scheme (CITS) provides skill development for all sections of society, including women. In order to enhance women participation under PMKVY, logistics such as conveyance, boarding and lodging are covered for women. 30% of seats in Industrial Training Institutes (ITIs) and Industrial Training Centers (ITCs) are reserved for women candidates. India's female labour force participation rate is one of the lowest in the world, and skill training is an important enabler to boost female participation in the economy. Sectors where job opportunities for women can be generated need to be identified so that gender inclusive skill training can be designed accordingly. The gig and platform sector, care sector including health, education, etc. are promising sectors with the potential to employ women across the skill spectrum. Women also need to be mainstreamed into non-traditional sectors such as plumbing, transportation and logistics and STEM courses for livelihood opportunities.

Focus on District Skill Planning

Recent initiatives have been undertaken to promote decentralized planning and grassroots implementation of skilling initiatives. Under Pradhan Mantri Kaushal Vikas Yojana (PMKVY) 3.0, District Skill Committees (DSCs) under the guidance of the respective State Skill Development Missions (SSDMs)

have been tasked with the development of District Skill Development Plans (DSDPs) to assess district-level skill demand and supply and address skill gaps. SANKALP (Skills Acquisition and Knowledge Awareness for Livelihood Promotion) is a World Bank supported programme to strengthen the skill planning and implementation capacity of the district administration and the DSCs. Under SANKALP, MSDE in 2018 instituted the "Awards for Excellence in District Skill Development Planning" to award the best DSDPs. While substantial progress has been made in district skill planning, there remains scope to strengthen the DSDPs. DSDPs can outline initiatives aimed at improving socio-economic inclusion in their respective districts, such as through regular outreach activities, counseling and targeted skilling programmes for vulnerable category candidates including migrant workers. A dedicated District Skill Officer can be deputed to overlook the district skill planning and implementation process and coordinate with other departments and SSDM to achieve convergence in skilling efforts. Strategies to train the workforce to meet global skill needs and build training and placement linkages with local industry also need to be incorporated in the DSDPs.

Way Forward

Skill development strategies in India need to be reshaped to meet the demands of the dynamic labour market and changing technologies. Skills demand is influenced by economic factors, migration and demography, among others. The quality of skilled workforce which is available in the labour market depends on the availability and relevance of skill development programmes. India's future skilling strategies should focus on reskilling, up-skilling and lifelong learning for all, skilling in non-traditional sectors for women and girls. A focus on increasingly leveraging technology can help accelerate skill development and enhance the quality of learning. Clearly defined pathways for aligning skill development with formal education, upgrading skills and qualifications as well as mobility across the skilling and education domains will be critical to making vocational education aspirational in India. Under cooperative federalism, constant dialogue and engagements with the States and District administration on skill planning and action strategies will be essential to 'Reimagining Skill India'.

(Sh. Kundan Kumar (IAS) is Adviser (Joint Secretary) : Industry I, Skill Development & Employment and Managing Urbanization Verticals at NITI Aayog. Dr. Sakshi Khurana is Consultant, Skill Development & Employment and Ms. Oshin Dharap is Young Professional, Skill Development & Employment Vertical, NITI Aayog.)

Views expressed are personal.

KNOWLEDGE AND SKILL BASED EMPLOYMENT CHALLENGE IN INDIA

Balakrushna Padhi & Himja

"Talent and skills are valuable in powering knowledge-based economies (Asian Development Bank, 2021)."

With increased globalization, competition, and information, the demand for a trained workforce has increased in both developing and developed nations. To achieve global quality standards, bring advanced technologies, and enhance foreign trade in order to boost industrial and economic development, various nations are thriving to employ skilled workers who can bring a competitive edge to the market. Thus, knowledge and skills are becoming the drivers of a country's social-economic development. Even empirics suggest countries with skilled human capital attain higher GDP and per capita income. With abundant capable and qualified human capital, India has evolved as a knowledge-based economy. India does have a unique position to grow its market share in the global outsourcing market which roughly stands around 65 percent currently.

It is interesting to note that, at the global level, India is uniquely positioned with a promising demographic dividend in comparison to the developed nations that are on the verge of an aging population. Countries such as China, Japan, the US, and European countries are already coping with the issues of an aging population and increasing dependency ratios whereas India has an average age of 29 years and a middle-age much below China and even OECD countries. According to the National Policy for Skill Development and Entrepreneurship 2015, the average age of the population in India in 2020 is 29 years which is far less than China, USA, Europe, and Japan which stand at 37, 40, 46, and 47 years respectively. The global population aged 65 and above was 530 million in 2010 and it is expected to double (1.3 billion by 2040) which will lead to a shortfall in the labour supply across the globe. The labour force in the industrialized world is expected to decline by 4 percent over the next 20 years, while it is expected to increase by 32 percent in India. With lower dependency ratios and a rare two-decade window of demographic dividend, India has a comparative advantage which can create an opportunity to become a global reservoir of skilled manpower for the economic development across the globe and within the country itself. Employment generation is

the primary focus of any country's developmental process. For this rising young-age population in the country, the issue of employment generation becomes the centre of debate and concern at both national and international levels. Not only this, the need of the hour is productive employment which was missing in the Millennium Development Goals (MDG) 2000. Later on in 2005, the goal of achieving "full and productive employment and decent work" was added as a sub-goal of MDG goal 1. But still, the idea of productive employment didn't get much attention. Only after 2015, the International Labor Organisation

(ILO) argued to bring productive employment to the centre of debate and agenda. Even, the recent Sustainable Development Goals (SDGs) 4 and 8 also focused on the skill aspects. The recent Covid-19 pandemic has impacted the low-skilled workers across the globe (ILO, 2021).

There are a plethora of studies that defined the term skill in different contexts. Skill is defined as "the learned ability to bring about pre-determined results with maximum certainty; often with the minimum outlay of time or energy or both" (Knapp, 1963). Historically it is referred as to manual craft workers and technologists (Ainley, 1993; Keep and Mayhew, 1999). Skill refers to the knowledge gained through education and experience and encompasses trade and craft skills through apprenticeship, as well as high-level performance in a variety of fields, including professional, practice, the arts, and athletics (Breivik, 2016). According to the International Classification of Occupation (ISCO) skill is defined as the ability to carry out the tasks and duties of a given job. Further, there are two dimensions of the skill- skill level and skill specialization to classify occupations into groups. Even OECD Future of Education and Skills 2030 referred to skills "as the ability and capacity to carry out processes and to be able to use one's knowledge in a responsible way to achieve a goal". The World Employment Report (1998) defines the term skill as an acquired and practice ability, or qualification needed to perform a job or certain task completely. It is a multifaceted term since most of the jobs involve a combination of skills which can range from physical abilities to interpersonal or cognitive ones. Thus, the definition or meaning of skill has been varying in both spatial and intertemporal aspects but still, no exact or universal definition of skill is there.

In today's world literacy is not restricted to formal educational attainment as it has broadened to the area of skill which comprises vocational skills, technical skills, digital skills, technical know-how, and other real-world knowledge application which are now in demand. Knowledge and Skill are becoming the decisive factors in the social development of any country. Literature suggests that having a demographic dividend without any policy framework is itself a serious challenge for the policymakers in the country. Skills development is one of most complex sub-sector to structure and administer in the education sector, as it breaks across organizational boundaries, serving clients with various delivery mechanisms involving dynamic market characteristics (Asian Development Bank 2008).

In India, the concept of skill development came into existence in 1956 in the first Industrial Policy which stressed formal Technical and Vocational Training Education and Training (TVET) with institutions designed for it. In 1961, the Apprenticeship act was enacted to provide practical training to qualified people and promote a new skilled labour force. There after Kothari Commission was appointed to develop a policy framework for the education system in India. First Industrial Training Institute was set in 1969 by the Ministry of Labour & Employment, Government of India, and later on in 1987, the All India Council of Technical Education (AICTE) as the regulator of technical institutions in the country. With the 1990s reforms, significant sectoral employment shifts were observed with the IT and service sectors booming. Thus keeping the paradigm shift National Skill and Development Corporation was set up in 2008 with the first National Policy on Skill Development in 2009 to enhance the public-private partnership in skill development. National Skill Development Corporation (NSDC) is a not-for-profit public limited company

incorporated on July 31, 2008 under section 25 of the Companies Act, 1956. Its aims to promote skill development by catalyzing creation of large, quality and for-profit vocational institutions. This initiative was undertaken in consensus with the state governments, enterprise owners, experts, and academia to build capacity in the course curricula, competency standards, learning materials, and assessment standards in the training process. Despite the previous efforts, still a huge skill mismatch existed which created a demand-supply mismatch. Even the study of Mehrotra (2014) also defined the employment challenges as, "India's demographic profile is changing: a sizeable and growing proportion of its total population is in the working age group, which is a window of opportunity for the country. However, the numbers are not backed by necessary skills. Over half of the country's workforce does not have primary education, and a miniscule fraction has any formal vocational education and training. The contemporary focus on skill development in India is aimed at bridging this gap and skills mismatch."

In India, with the growing population and stagnant productivity, it becomes essential to study skill development and jobless growth phenomenon for various reasons. First of all, due to the increasing bulge of the young population in the recent decades, this is often called as demographic dividend phenomenon. Secondly due to the segmented labour market structure, where a majority of the labour force is engaged in informal work activities including the self-employed. Despite of the success of the economic reforms post 1990s, there has been slow growth in the employment generation in private sector (in 2000s) which was termed as the period of "jobless growth". This has had substantial implications in the labour market, since the newest entrants which primarily

comprise of youth have ended up working in the informal sector, despite of poor salaries and no social security. Over the years efforts have been taken for the expansion of primary and secondary education particularly in rural India, but still constraints continue to exist in educational and training opportunities. The 11th Five-year plan aimed at generating new employment opportunities with a reduction in overall unemployment. Post-2012 it was expected that total employment would increase but India saw a decline of 9 million jobs by the end of 2017-18. Agriculture sector saw a major decline of 4.5 million per annum employment with share of the agriculture and allied activities falling to 44 percent.

Even at global level in 2000, International Labor Organisation coined the term "NEET" referring to "Young people Not in Employment, Education or Training". One out of every five young individuals in the world falls into the category of NEET, with women accounting for two-thirds of all NEETs. Countries such as India, Saudi Arabia, and Ethiopia have the largest disparities between young men and women. Though statistics in India show the increased participation of women in education but it failed to translate to a decrease in the number of NEETs. Thus, persisting high unemployment and a rise in the gap between the employee and the market demand for skills leads to economic tension.

Recently, the Indian government has implemented significant legislative and institutional adjustments to encourage the development of skill. It is quite interesting to see how skill development system has evolved in India with distinct dynamics between the private, government and training institutes. In 2014, the Government of India established Ministry of Skill Development and Entrepreneurship with Skill India Mission. Under this, flagship sectoral Skill Councils were established to identify the training programs. Other than this several other schemes were developed such as Pradhan Mantri Kaushal Vikas Yojana, Skill Acquisition and Knowledge Awareness for Livelihood Promotion (SANKALP), Udaan, Standards Training Assessment and Reward Scheme (STAR), Polytechnic Schemes, Rozgar Mela, Craftsmen Training Schemes, etc. to provide skill to the youth and supplement their employability. The Government of India is in a continuous effort to synchronize the efforts of the State Governments and private stakeholders to develop an

Continued on page 17

Continued from page 1

BIOTECHNOLOGY SECTOR DRIVING ...

route and beyond 74% is under government approval route. FDI up to 100% is allowed under the automatic route for the manufacturing of medical devices.

India is recognized as a mega bio-diversity country and biotechnology offers opportunities to convert our biological resources into economic wealth and employment opportunities. Innovative products and services that draw on renewable resources bring greater efficiency into industrial processes, check environmental degradation and deliver a more bio-based economy.

The Biotechnology sector is divided into five major segments-Bio-pharma, Bio-services, Bio-agri, Bio-industrial, and Bio-informatics. The biopharmaceutical sector accounts for the largest share of the biotech industry with a share of 64% of total revenues, followed by bio-services with 18% market share. India is becoming a leading destination for clinical trials, contract research, and manufacturing activities, which is further fueling the growth of the bio-services sector. Bio-agri segments accounted for 14% of the biotech industry in 2015-16, while the remaining market is catered by bio-industrial (3%) and bio-informatics (1%). For a country like India, biotechnology is a powerful enabling technology that can revolutionize agriculture, healthcare, industrial processing and environmental sustainability.

There are several social concerns that need to be addressed in order to propel the emergence of biotechnology innovation in our country such as conserving bioresources and ensuring safety of products and processes. Government and industry have to play a dual role to advance the benefits of modern biotechnology while at the same time educate and protect the interests of the public. Wide utilization of new technologies would require clear demonstration of the new added value to all stakeholders. There has been substantial progress in terms of support for R&D, human resource generation and infrastructure development over the past decade. With the introduction of the product patent regime it is imperative to achieve higher levels of innovation in order to be globally competitive. The challenge now is to join the global biotech league.

This will require larger investments and an effective functioning of the innovation pathway. Capturing new opportunities and the potential economic, environmental, health and social benefits will challenge government policy, public awareness, and educational, scientific, technological, legal and institutional framework. The

issue of access to the products arising from biotechnology research in both medicine and agriculture is of paramount importance. Therefore, there should be adequate support for public good research designed to reach the unreached in terms of technology empowerment. Both "public good" and "for profit" research should become mutually reinforcing. Public institutions and industry both have an important role in the process.

This is the time for investment in frontier technologies such as biotechnology. It is envisaged that clearly thought-out strategies will provide direction and enable action by various stakeholders to achieve the full potential of this exciting field for the social and economic well-being of the nation

Areas of Synergy in Biotech Space

Maritime resource collaborations: The economic zone of the sea as a source of novel genes and gene products - biopolymers, novel enzymes, new therapeutic leads, and other value-added products such as osmo-tolerant crops - has hardly been explored. Marine organisms also present immense potential as biosensors for pollution monitoring as well as bioreactors for production of novel products. Besides, the study of deep-sea organisms including marine microbes has tremendous implications for human health. Expertise in these diverse areas is scattered across a number of agencies/ institutions.

Environment: Environmental issues concern everyone. Biotechnology has tremendous potential for application to a wide variety of environmental issues including conservation and characterization of rare or endangered taxa, afforestation and reforestation. It can help in rapid monitoring of environmental pollution, eco-restoration of degraded sites such as mining spoil dumps, treatment of effluents discharged by industries (oil refineries, dyeing and textile units, paper and pulp mills, tanneries, pesticide units etc.), treatment of solid waste, and so on. A number of technologies have already been generated and demonstrated in the country. The real challenge is their adoption by the industry, which has been somewhat uneven. In general, corporate groups have not been overly enthusiastic in adopting biotechnologies even where they have proven efficacy.

The goal of environmental biotechnology would be to provide cost-effective and clean alternatives for risk assessment and quality monitoring, eco-restoration of degraded habitats, conversion of toxic recalcitrant

chemicals into harmless by-products, bioremediation of wastes, value-added products from biomass, control of biological invasion through biotechnological interventions, greener process technologies, and effective ex situ conservation strategies. These can be fulfilled through a deeper understanding - and engineering - of the metabolic pathways for degradation of toxicants, environmental genomics and proteomics, and other molecular techniques.

Industrial Biotechnology: At present, a third wave of biotechnology - industrial biotechnology - is strongly developing. Industrial biotechnology (also referred to as white biotechnology) uses biological systems for the production of useful chemical entities. This technology is mainly based on biocatalysis and fermentation technology in combination with recent breakthroughs in the forefront of molecular genetics and metabolic engineering. This new technology has developed into a main contributor to the so-called green chemistry, in which renewable resources such as sugars or vegetable oils are converted into a wide variety of chemical substances such as fine and bulk chemicals, pharmaceuticals, bio-colorants, solvents, bio-plastics, vitamins, food additives, bio-pesticides and bio-fuels such as bio-ethanol and bio-diesel.

The application of industrial biotechnology offers significant ecological advantages. Agricultural crops are used as starting raw materials, instead of using fossil resources such as crude oil and gas. This technology consequently has a beneficial effect on greenhouse gas emissions and at the same time supports the agricultural sector producing these raw materials. Industrial biotechnology frequently shows significant performance benefits compared to conventional chemical technology.

Medical Biotechnology: A healthy population is essential for economic development. Important contributors to the total disease burden are infections like HIV-AIDS, tuberculosis, malaria, respiratory infections and chronic diseases affecting the heart and blood vessels, neuro-psychiatric disorders, diabetes and cancer. It is important to synchronize the technology and products with the local needs of the health system and to facilitate technology diffusion into health practice.

Increasing knowledge about pathogen genomes and subtypes, host responses to infectious challenges, molecular determinants of virulence and protective immunity and novel understanding mechanisms underlying escaped immunity and ways to develop novel immunogens will guide development of vaccines against

infectious diseases. Translational research and ability to rapidly evaluate multiple candidates in clinical trials can help accelerate the pace of vaccine development.

New directions in manufacturing and delivery are emerging. Major opportunities to control costs are the more efficient processes for manufacturing of new pharmaceuticals, more efficient systems for production of therapeutic proteins and biomaterials and development of drug delivery systems that release drugs at a target site. A shift from parenteral to oral or transcutaneous administration of drugs and vaccine holds the promise of simplifying delivery in health systems.

Medical biotechnology offers a significant possibility for Indian industry to establish a strong pharmacy sector, a growing number of small and medium biotechnology companies, a large network of universities, research institutes, and medical schools and low cost of product evaluation. The medical biotechnology sector annually contributes over 2/3rd of the biotechnology industry turnover. The Indian vaccine industry has highlighted India's potential by emerging as an important source of low cost vaccine for the entire developing world.

Bio-informatics and IT - enabled Biotechnology

Bioinformatics has proved to be a powerful tool for advanced research and development in the field of biotechnology. Bioinformatics holds out strong expectations of reducing the cost and time of development of new products such as new drugs and vaccines, plants with specific properties and resistance to pests and diseases, new protein molecules and biological materials and properties. As the full genome sequences, data from micro arrays, proteomics as well as species data at the taxonomic level became available, integration of these databases require sophisticated bioinformatics tools. Organizing these data into suitable databases and developing appropriate software tools for analyzing the same are going to be major challenges. India has the potential to develop such resources at an affordable cost.

To conclude, Biotechnology can deliver the next wave of technological change that can be as radical and even more pervasive than that brought about by IT. Employment generation, intellectual wealth creation, expanding entrepreneurial opportunities, augmenting industrial growth are a few of the compelling factors that warrant a focused approach for this sector.

Biotechnology as a subject has grown rapidly and as far as employment is concerned it has become one of the fast-growing sectors. Employment record shows that biotechnology has a great scope in future. Biotechnologists can find careers with pharmaceutical companies, chemical, agricultural and allied companies. They can be employed in the areas of planning, production and management of bio-processing industries. There is a large scale employment in research laboratories run by the government as well as the corporate sectors.

Biotechnology students in India may find work in government based entity such as universities, research institutes or at private centres as research scientists/ assistants. Alternatively they may find employment in specialized biotechnology companies or biotech-related companies such as pharmaceutical firms, food manufacturers, aquaculture and agricultural companies that are engaged in business related to life sciences ranging from equipment to chemicals to pharmaceuticals and diagnostics. The scope of work can range from research, sales, marketing, administration, quality control, breeding, technical support etc.

There is no doubt that Biotechnology sector is one of the sunrise sectors in India which has a potential to create millions of jobs. The government is investing substantially for creating human capital and infrastructure with a special focus on R&D to develop India into a world class bio manufacturing hub.

INDICATIVE ADVERTISEMENT NO. 09/2022

Online Recruitment Applications (ORA) are invited for Direct Recruitment by selection through website <http://www.upsconline.nic.in> to the following posts by **2nd June, 2022**.

1. (Vacancy No. 22050901114)

One vacancy for the post of **Drug Inspector (Ayurveda)**, Ministry of AYUSH (UR-01). **Pay Scale:** Level-08 in the Pay Matrix as per 7th CPC plus NPA. **Age: 30 years.**

2. (Vacancy No. 22050902414)

Nine vacancies for the post of **Assistant Director (Banking)** in Serious Fraud Investigation Office (SFIO), Ministry of Corporate Affairs (ST-01, OBC-02, EWS-01, UR-05). **Pay Scale:** Level-08 in the Pay Matrix as per 7th CPC. **Age: 30 years.**

3. (Vacancy No. 22050903314)

One vacancy for the post of **Master in Hindi** in Rashtriya Indian Military College, Dehradun, Ministry of Defence (SC-01). **Pay Scale:** Level-10 in the Pay Matrix as per 7th CPC. **Age: 40 years.**

4. (Vacancy No. 22050904414)

Twenty-two vacancies for the post of **Assistant Director (Cost)**, Office of Chief Adviser Cost, Department of Expenditure, Ministry of Finance (SC-03, ST-02, OBC-06, EWS-03, UR-08) (PwBD-01)*. *Of the twenty-two vacancies, one vacancy is reserved for candidates belonging to Persons with Benchmark Disability (PwBD) viz. Locomotor Disability including Cerebral Palsy, Leprosy Cured, Dwarfism, Acid Attack Victims and Muscular Dystrophy with disability i.e. Both legs affected but not arms (BL) or One leg affected (R or L) (OL) or One arm affected (R or L) (OA) or One leg and One arm affected (OLA) or Leprosy Cured (LC) or Dwarfism (DW) or Acid Attack Victims (AAV) and Muscular Dystrophy (MDy). **Pay Scale:** Level-10 in the Pay Matrix as per 7th CPC. **Age: 35 years.**

5. (Vacancy No. 22050905414)

One vacancy for the post of **Assistant Registrar General (Map)** in Office of the Registrar General, India, Ministry of Home Affairs (UR-01). **Pay Scale:** Level-12 in the Pay Matrix as per 7th CPC. **Age: 50 years.**

6. (Vacancy No. 22050906214)

Three vacancies for the post of **Scientist 'B' (Chemistry)** in Central Forensic Science Laboratory, Directorate of Forensic Science Services, Ministry of Home Affairs (OBC-01, UR-02). **Pay Scale:** Level-10 in the Pay Matrix as per 7th CPC. **Age: 35 years.**

7. (Vacancy No. 22050907214)

One vacancy for the post of **Junior Scientific Officer (Ballistics)** in Central Forensic Science Laboratory, Directorate of Forensic Science Services, Ministry of Home Affairs (OBC-01). **Pay Scale:** Level-07 in the Pay Matrix as per 7th CPC. **Age: 33 years.**

8. (Vacancy No. 22050908214)

One vacancy for the post of **Junior Scientific Officer (Explosives)** in Central Forensic Science Laboratory, Directorate of Forensic Science Services, Ministry of Home Affairs (ST-01). **Pay Scale:** Level-07 in the Pay Matrix as per 7th CPC. **Age: 35 years.**

9. (Vacancy No. 22050909214)

Two vacancies for the post of **Junior Scientific Officer (Toxicology)** in Central Forensic Science Laboratory, Directorate of Forensic Science Services, Ministry of Home Affairs (EWS-01, UR-01) (PwBD-01)*. *Of the two vacancies, one vacancy is reserved for candidates belonging to category of Persons with Benchmark Disability (PwBD) viz. Deaf and Hard of Hearing with disability i.e. Deaf (D) or Hard of Hearing (HH). **Pay Scale:** Level-07 in the Pay Matrix as per 7th CPC. **Age: 30 years.**

10. (Vacancy No. 22050910114)

One vacancy for the post of **Senior Lecturer (Obstetrics & Gynaecology)** in Government Medical College & Hospital, Chandigarh, Department of Medical Education & Research, Chandigarh Administration (UR-01). **Pay Scale:** Level-11 in the Pay Matrix as per 7th CPC plus NPA. **Age: 50 years.**

11. (Vacancy No. 22050911314)

Eight vacancies for the post of **Assistant Professor (Law)** in Dr. Ambedkar Government Law College, Puducherry, Directorate of Higher and Technical Education, Puducherry, Government of Puducherry (ST-01, OBC-02, EWS-01, UR-04). **Pay Scale:** Level-10 in the Pay Matrix as per 7th CPC. **Age: 35 years.**

The crucial date for determining the age limit shall be the closing date for submission of online application.

Candidates having proficiency in use of Computer will be preferred.

*For Post at S. No. 03, following category of disability has been identified for PwBD candidates. a) Locomotor Disability (OA, OL) including Leprosy cured, Acid Attack Victims and, Dwarfism, b) Deaf & Hard of Hearing, c) Multiple Disability – from amongst (a) & (b).

PROCEDURE FOR APPLYING

Candidates are required to read the **GENERAL INSTRUCTIONS** before filling up the online application form.

The Candidates are required to apply online. The relevant link for online application will be made available from **10:00 hrs on 09.05.2022 under the head "CAREER within Human Resources" on NBCC website i.e. www.nbccindia.in. Final Online submission of application will be open till 17:00 hrs on 08.06.2022** No other means/mode of application shall be accepted.

Opening Date for Online Registration: 09.05.2022 from 1000 hrs

Closing Date of Online Registration: 08.06.2022 upto 1700 hrs

Before filling application online, candidates should keep ready scanned copy of –

- Passport size Photograph (Size 40 KB to 100 KB) & Signature in jpg/jpeg format (Size 20 KB to 50 KB).
- SC/ST/OBC (NCL)/EWS/PWD certificate, if applicable. (Size 100 KB to 300 KB).
- Matriculation/Secondary certificate as proof of date of birth.
- All necessary Pass Certificates and Mark Sheets of Essential Educational Qualifications which makes you eligible for the post and other qualifications, if any.
- All Post Qualification Experience Certificates, if applicable (including from present employer) indicating clearly the date of joining and relieving of the posts (e.g. Experience Certificate, Last 3 months Pay Slip, Form-16, Joining/Relieving Order etc).

Candidates must keep his e-mail ID in operation at least for one year. Candidates are required to give correct email address. In case of non delivery or late delivery of email due to any reasons whatsoever, Company will not be held responsible.

Fill in the online form with all the relevant details. Upload scanned copy of the photograph; signature, SC/ST/OBC (NCL)/EWS/PWD certificate, (if applicable) & all the Essential educational & post qualification experience documents, (if applicable) as mentioned above. Candidates should ensure that the relevant details viz. Name, Date of Birth, Address, etc. entered in NBCC online application form is correct. **Incomplete application will be summarily rejected. Any request to add additional information in application form after the application has been submitted shall not be entertained in any condition.**

Detailed procedure regarding payment of fee is explained under **"PAYMENT OF APPLICATION FEE"**.

PAYMENT OF APPLICATION FEE

- Applicants/Candidates are required to pay a non-refundable amount of Rs. 1000/. Candidates will be levied tax/charge from their transaction bank, as applicable. SC, ST, PWD & Departmental candidates are exempted from payment of application fee.
- Candidates are required to make application fee payment through debit card/credit card/net-banking. The candidates will be automatically redirected to make online payment (wherever fee is applicable), once the form is successfully completed.
- No other mode of payment will be accepted. Application fee once paid will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility before payment of application fee.

No. 46/2022-R&R
Government of India

Ministry of Power

Shram Shakti Bhawan, Rafi Marg
New Delhi - 110001

dated 29th April, 2022

VACANCY CIRCULAR

The Appellate Tribunal for Electricity (APTEL) was set up at New Delhi by Government of India under the provisions of the Electricity Act, 2003 to hear appeals against the orders of the Adjudicating Officer or Appropriate Commission, with its headquarters in Delhi via Notification dated 7.4.2004. As per Section 112 of the Electricity Act 2003, the Tribunal consists of a Chairperson and three other Members (including one Judicial Member). Section 30 (1) of the Petroleum and Natural Gas Regulatory Board Act 2006 (19 of 2006) stipulates that APTEL shall be the Appellate Tribunal for purposes of the Petroleum Act. Ministry of Petroleum and Natural Gas has also provided one Technical Member (P&NG) in the tribunal whose terms and conditions of service shall be the same as applicable to other Members of APTEL (thus bringing the total number of Members to four, excluding the Chairperson).

2. Appointment to the post of Judicial Members is governed by the relevant provisions of the Tribunal Reforms Act, 2021 and the Tribunal (Conditions of Service) Rules, 2021. **One post of Judicial Member in the Tribunal will fall vacant on 4.12.2022** on completion of tenure of present incumbent. The anticipated vacancy is required to be filled up.

3. **Qualification:** A person shall not be qualified for appointment as Judicial Member, unless he,--

(i) is, or has been, a Judge of a High Court; or
(ii) has, for a combined period of ten years, been a District Judge and Additional District Judge; or
(iii) has been an advocate for ten years with substantial experience in litigation in matters relating to power sector before Central Electricity Regulatory Commission, State Electricity Regulatory Commission, Appellate Tribunal for Electricity, High Court or Supreme Court.

4. **Salary:** The Member shall be paid a salary of Rs. two lakh twenty-five thousand per month. In case a person appointed as Member is in receipt of any pension the pay of such person shall be reduced by the gross amount of pension drawn by him.

Allowance: (1) Members shall be entitled to draw allowances and benefits as are admissible to a Government of India officer holding Group 'A' post carrying the same pay.

(2) Notwithstanding anything contained in sub-rule (1), with effect from the 1st January, 2021, the Members shall have option to avail of accommodation to be provided by the Central Government as per the rules for the time being in force or shall be eligible for reimbursement of house rent subject to a limit of One lakh twenty-five thousand rupees per month in case of Members of Tribunals.

4. The other terms and conditions of the appointment of a candidate will be governed by the provisions of the Tribunal (Conditions of Service) Rules, 2021 and Tribunal Reforms Act, 2021.

5. **Procedure for selection:-** The Search-Cum-Section Committee constituted under the Tribunal Reforms Act 2021 for recommending names for appointment to the said post shall scrutinise the applications with respect to suitability of application for the posts by giving due weightage to qualification and experience of candidates and shortlist candidates for conducting personal interaction. The final selection will be done on the basis of overall evaluation of candidates done by the Committee.

6. **Application Procedure:-** Applications of eligible and willing officers are requested through proper channel (wherever applicable) and are accompanied with (i) bio-data in the proforma at Annexure-I (ii) Certificate to be furnished by the employer/ head of office/ forwarding authority as in Annexure-II (iii) clear photocopies of the up-to-date CR/APAR dossier of the officer containing CR/APARs of at least last five years duly attested by a Group A Officer (iv) cadre clearance (v) integrity certificate/clearance from vigilance and disciplinary angle as in Annexure-III (vi) statement giving details of major or minor penalties, if any, imposed on the officer during the last ten years, to the following address, so as to reach this office **by latest 10.6.2022 addressed to**

"Deputy Secretary (R&R), Ministry of Power, 2nd Floor, Room No. 222A, Shram Shakti Bhawan, New Delhi 110001."

7. No TA/DA will be admissible to the candidates if called for interview/interaction. The candidates are required to make own arrangements. **Advertisement and prescribed application form can be downloaded from Ministry of Power's website i.e. <https://powermin.gov.in>.** The prospective candidates have also to give a declaration that he/she does not have any financial or other interest, which is likely to affect prejudicially his/her functioning as Member of the Appellate Tribunal for Electricity.

8. The application may also be emailed at **debranjan.chattopadhyay@nic.in**. Any application received after due date will not be entertained.

KNOWLEDGE AND SKILL BASED ...

ecosystem for entrepreneurship and capacity building. The primary thrust has been towards two distinct issues of the skill market- under-provision and the absence of quality provision. Thus the Ministry of Skill Development and Entrepreneurship (MSDE) is in a continuous effort to facilitate enrolment in long-term courses along with short-term training for the youth entering the job market.

Despite the various efforts and initiatives by the government, a long journey awaits to make every youth of the country adequately skilled, but still, a huge mismatch exists. The major reason behind this could be the presence of informality in the economy. It is estimated that almost 91 percent of the workforce is engaged in the informal sector which generally employs a workforce with low skill and lower wages without any proper training. Though the literature suggests with technical education and training the probability of getting higher salaries or remuneration increases, informality in the economy doesn't incentivise such initiatives. Further, mere 4.69 percent of the total workforce in

the country is formally trained which is quite low in contrary to the countries such as Germany (75%) and South Korea (96%). In terms of labour demand and supply there is a case of skill mismatch due to technological progress, rapid development of Information and Communication Technology (ICT) which are demanding workers to have more of cognitive skills over physical ones (OECD, 1997). This transition is termed as Fourth Industrial Revolution, popularly termed Industry 4.0 which comprises a wide range of technological advances in the global market ranging from big-data analytics to industrial automation. With the advent of Industry 4.0 (Fourth Industrial Revolution) the provisioning of employment and skilling is a major challenge not only in India but also across the globe. This will transform the traditional production processes into digital ones offering flexibility to the industries to leverage innovation with automation. Thus, the adoption of such a revolution will eliminate the lower-skilled jobs with increased productivity. This can even result in the movement of value-adding operations to the developed

nations as the developing ones may have a scarcity of required skills.

Therefore, a skill-centered education system needs to be developed and coordinated well with the demand and supply of geographies, industries, and markets. These initiatives should be more concentrated on the lagged/backward areas where there is an abundance of the idle labour force. Apart from this, the institutional and financial frameworks must provide a reliable bridge between the world of learning and its practical applicability in order to make the training programs relevant. The four major stakeholders-businesses, labour, government, and training providers must work at the same scale in synchroni-zation to make the efforts productive and fruitful. In India, skill development is dependent on government funding or public-private partnership. It is often regarded as a non-scalable model and under-invested. There is a general reluctance among the masses towards fee-based models as the majority of the people are averse to paying fees for training modules. When it comes to loans for skill

development activities, it is likewise seen as a high-risk activity due to the low return on investment. Skill-based employment prospects are looked at with low dignity providing low wages and salaries. Along with this most of the population is associated with the unorganized sector so skilling and convincing such section of the population about occupational standards and job roles becomes chall-enging. The overall focus should be drawn on

encouraging international mobility both within and across the countries to become the "skill capital" of the world.

EMPLOYMENT NEWS
QUESTION OF THE WEEK

In the 88th edition of Mann ki Baat, Prime Minister Narendra Modi urged the citizens to celebrate International Museum Day by visiting museums in their city to know more about our country's heritage. If you have visited any museums, let us know which museum is your favourite. What did you like about that museum and how was your experience?

Entries may be sent to writetous.en@gmail.com latest by **25/05/2022** in English/Hindi/Urdu and should be of **200 to 250 words**. Entrants must clearly mention their **Name, Age, Full Address, Email ID and Contact No.** The entry adjudged best will be published in **Employment News/Rozgar Samachar** (issue dated 4-10 June 2022) and will be eligible for a three-month free subscription of Yojana/ Kurukshehra/ Aikal as per the winner's choice.

BEST ENTRY FOR ISSUE
DATED 23-29 APRIL 2022

Question: April 23rd is celebrated as World Book Day across the globe. Tell us about the significance of books in the intellectual growth of an individual and which genre you find most interesting. Which book/author left a lasting impact on your mind and why?

BHUMIKA MISHRA
KOLKATA, WEST BENGAL

Books are the elixir of life. A room without books can be compared to a room without windows as books are the windows which help us to get a view of the world. Books are vast treasure troves of knowledge which help us understand things without necessarily having to experience them. Books help to change the way we think and help us develop a perception. Being an avid book reader myself, I have noticed several changes in myself, since books help us scrutinize our behaviour and what changes we need to make within ourselves as well as effectively guide us in becoming a polished person by letting us know how we can change for the greater good. Books often stir our imagination and unleash us into a realm that traverses time and space and makes us courageous by helping us to dare to dream. Books help us in our intellectual development by helping us in our creative process. The life of a person without books is like a life without colors and colors are important. Books are as indispensable for life as is food since they provide us with intellectual nutrition. Books help in our cognitive development and also improve our concentration level. Books are the jewels of knowledge which are invaluable and stay with us for lifetime.

My favorite genre is self-help books, since these provide me an insight into life and ways in which one can cultivate good qualities. My favorite book is Life's Amazing Secrets by Gaur Gopal Das, which, by the medium of interesting anecdotes, lets us know that there are very little things in our life which hold great significance and that we need to develop positive thinking.

World Telecommunication Day

Fast Tracking Digital Empowerment and Inclusion

Telecommunication has been recognized the world-over as a powerful tool of development and poverty reduction through empowerment of masses. It is one of the key elements of the Sustainable Development Goals (SDGs) of the United Nations Agenda for Sustainable Development for 2030, reflecting its growing reach, better networks and adoption of tools and solutions that enhance digitisation of systems, processes and interactions across key sectors like agriculture, banking, health-care, etc. in developing and middle income countries.

To bring the world's attention to this powerful tool, World Telecommunication Day has been celebrated annually since 1969 on May 17, marking the founding of the International Telecommunication Union (ITU) and the signing of the first

financial inclusion of older persons, and support millions of caregivers across the world. Supporting a life of healthy ageing is also critical for the sustainability of economic and health systems. The ITU hopes to foster initiatives to accelerate digital technologies for older persons and healthy ageing that will contribute towards the UN Decade of Healthy Ageing.

Importance of Tele-

communication as important as land, labour and capital.

Higher economic growth places more demand on the

EN EXPLAINS

existing and newer telecommunications services thereby inducing the development of the sector while the economic growth itself makes the necessary investment resources available. In this context, the Government of India has played an important role and supported the telecom sector by appropriate and benign policies. Through policy initiatives, the Government has ensured fair competition among service providers, and a fair and proactive regulatory framework has made telecom services affordable and within reach of the common person of the country.

Telecommunications Set Up in India

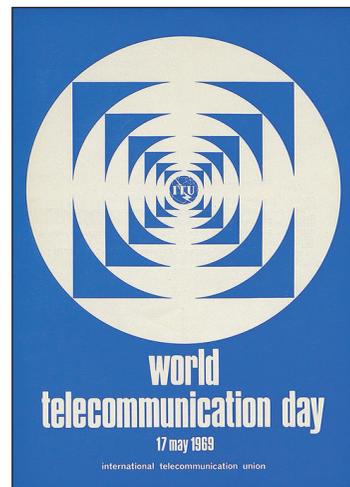

In India, the Department of Telecommunications (DoT) is, inter-alia, responsible for Telecom Policy; Licensing and Coordination matters relating to telegraph, telephones, telecom wireless data; international cooperation in matters connected with telecommunications, promotion of standardization, Research & Development (R&D) in Telecommunications; and promotion of private investment in the sector. DoT is also responsible for frequency management in the field of radio communication in close coordination with the international bodies. DoT enforces wireless regulatory measures by monitoring wireless transmission of all users in the country.

A Telecom Commission was set up by the Government of India in 1989 with administrative and financial powers of the Government of India to deal with various aspects of telecommunications. The Commission was redesignated as the 'Digital Communications Commission' in 2018. The Digital Communications Commission is responsible for: a) formulating the policy of Department of Telecommunications for approval of the Government; b) preparing the budget for the Department of Telecommunications for each financial year and getting it approved by the Government; and c) Implementation of

Government's policy in all matters concerning telecommunication.

During the difficult pandemic period, initiatives of the Department ensured seamless connectivity, uninterrupted services, work from home, and online classes to name a few.

India has been taking concrete steps towards development of telecom standards. The 5G standards developed within India have now been recognised by ITU as one of the three technologies for 5G. With more than 1.2 billion telecom subscribers, a robust ecosystem of start-ups and innovation hubs,

India is poised to contribute meaningfully in developing telecom standards further. A 6G Technology Innovation Group (TIG) has also been constituted by DoT with the objective to co-create and participate in the development of 6G technology ecosystem through increased participation in capability description, standards development at international standard setting bodies.

India recently signed Host Country Agreement with the International Telecommunication Union for establishment of Area Office & Innovation Centre at New Delhi. International Telecommunication Union is the United Nations specialised agency for Information and Communication Technologies - ICTs. The Area Office and Innovation Centre of ITU at New Delhi is expected to serve South Asian countries namely Afghanistan, Bangladesh, Bhutan, Iran, Maldives, Nepal, Sri Lanka and India. The Area Office shall also have an Innovation Centre, which is expected to give impetus to research and development in telecommunication technologies in South Asia.

National Digital Communications Policy

The National Digital Communications Policy, 2018 (NDCP) was launched by the Government with a vision to fulfill the information and communication needs of citizens and enterprises through establishment of a ubiquitous, resilient, secure, accessible and affordable Digital Communications Infrastructure and Services. The policy aims to support India's transition to a digitally empowered economy and society. The policy further seeks to unlock the transformative power of digital communications networks for achieving the goal of digital empowerment and improved well-being of the people.

The policy has three missions:

- Connect India:** To promote 'Broadband for All' as a tool for socio-economic development, while ensuring service quality and environmental sustainability. In order to operationalize 'Broadband for All', National Broadband Mission was launched in 2019 with a vision to enable fast track growth of digital communications infrastructure, to bridge the digital divide for digital empowerment and inclusion, and to provide affordable and universal access to broadband.
- Propel India:** To harness the power of emerging digital technologies, including 5G, AI, IoT, Cloud and Big Data to enable provision of future ready products and services, and to catalyze the fourth industrial revolution (Industry 4.0) by promoting investments, innovation and IPR.
- Secure India:** To secure the interests of citizens and safeguard the digital sovereignty of India with a focus on ensuring individual autonomy and choice, data ownership, privacy and security; while recognizing data as a crucial economic resource.

National Broadband Mission

Enabling Broadband connectivity across the country is essential to bridge the Digital divide between rural-urban and rich-poor and to promote e-governance, transparency, financial inclusion, ease of doing business and the socio-economic development of citizens. With the objective to provide 'Broadband for All', 'National Broadband Mission' was launched by the Government on December 17, 2019 to enable fast track growth of digital communications infrastructure, to bridge the digital divide for digital empowerment and inclusion, and to provide affordable and universal access to broadband.

International Telegraph Convention in 1865.

In 2005, the World Summit on the Information Society called upon the UN General Assembly to declare May 17 as World Information Society Day to focus on the importance of information and communication technologies (ICT) and the wide range of issues related to the Information Society raised by WSIS. The General Assembly adopted a resolution in 2006 stipulating that World Information Society Day shall be celebrated every year on May 17. In November 2006, the ITU Plenipotentiary Conference in Antalya, Turkey, decided to celebrate both events on May 17 as World Telecommunication and Information Society Day.

Theme for 2022

This year's theme raises awareness of the important role of telecommunications/ICTs in supporting people to stay healthy, connected and independent - physically, emotionally and financially. Telecommunications and Information Communication Technologies (ICTs) have a role to play in achieving healthier ageing, and also in helping people build smarter cities, combat age-based discrimination at the workplace, ensure

communication

With a subscriber base of around 2 billion, India is currently the world's second-largest country in terms of telephone connections. India's mobile subscriptions now constitute more than 98% of all telephone subscriptions. The Internet is now akin to global information infrastructure. The Government has placed considerable emphasis on internet and broadband in the country as a part of its 'Digital India' campaign.

The main medium for internet access is mobile telephony. With extensive reach and affordability, mobile telephony has helped in bringing unconnected sections of population with the network and in the mainstream, thereby reducing the digital divide, which has assumed added significance during the pandemic.

Telecommunications reduce transaction costs by decreasing the cost of acquiring information, create opportunities for additional transactions, and therefore contribute to economic efficiency and growth. Reducing transaction costs is a major contribution of telecommunication to the economic growth of a nation. Information, and the facilities for accessing, processing, and disseminating it in electronic form, have become a

(v) Minimum visual activity 6/6 (vi) Clean Driving Record (vii) Proven Experience as Driver

3. **Age Relaxation.** Permissible relaxations of upper age limit for different categories are as under:-

Category	Age Relaxation permissible beyond the upper age limit
Ex-Servicemen	03 years after deduction of the military service rendered from the actual age as on the closing date for receipt of application.
Departmental candidates with minimum 03 years continuous service	Upto 40 years of age

Note:- Central Government civilian employees claiming age relaxation should be in possession of certificate in the prescribed format (Annexure-I) from their office in respect of the length of continuous service which should not be less than three years as on the closing date for receipt of application. They should continue to have the status of Central Government civilian employees from the date of application till the time of appointment, in the event of their selection.

4. **Age Determination/Crucial Date.**

(a) The crucial date of determining the age limit would be the closing date for receipt of applications from candidates i.e. **21 days from the date of publication of advertisement in the Employment News** in respect of all candidates, irrespective of their place of residence.

(b) The crucial date for determining age limit in case of candidates from Employment Exchange shall be the last date upto which the Employment Exchange is asked to submit the names.

5. **Application Closing Date.** The closing date for receipt of applications from candidates will be **21 days** from the date of publication of advertisement in Employment News while the last date of receipt of application from the candidates residing in Assam, Meghalaya, Arunachal Pradesh, Mizoram, Manipur, Nagaland, Tripura, Sikkim, Ladakh Division of Jammu and Kashmir State, Lahaul and Spiti District and Pangi Sub-division of Chamba District of Himachal Pradesh, Andaman & Nicobar Islands and Lakshadweep will be **28 days from the date of publication of advertisement in Employment News.**

6. **Mode of Selection.**

(a) **Short-listing of Applications.** Where the number of applications received is too large in proportion to the vacancies and it is not convenient or possible for the department to call all the candidates for the skill test/written test, department at their discretion, may restrict the number of candidates to a reasonable limit, based on the marks obtained in the qualifying examination.

(b) **Scheme of Written Examination.** The question papers of written test (objective type-multiple choice question) will be of 10th standard and bilingual (except for General English) covering aspects as stated below:-

(i) **Skill Test at prescribed norms:** Civilian Motor Driver (CMD) (OG) - Driving Test, knowledge of motor mechanics.

(ii) **Written Test.** Only those candidates qualifying in written test in following subjects will be called for skill test:-

S.No.	Subject	Question	Marks
(a)	General Intelligence and Reasoning	25	25
(b)	General Awareness	25	25
(c)	English Language and Comprehension	25	25
(d)	Numerical Aptitude	25	25

(c) **Date of Examination.** Exact date, time and venue of examination will be communicated in the Call letter.

(d) **Appointment Letter.** The appointment of provisionally selected candidates will be strictly based on satisfaction of Document Verification, Medical Examination and other requirement as specified by the Government of India.

(e) Success in the examination confers no right of appointment unless Government is satisfied after such enquiry as may be considered necessary that the candidate is suitable in all respects for appointment to the service/post.

(f) The candidates applying for the examination should ensure that they fulfil all the eligibility conditions for admission to the examination. Their admission at all the stages of examination will be purely provisional, subject to their satisfying the prescribed eligibility conditions. If, on verification, at any time, it is found that they do not fulfill any of the eligibility conditions, their candidature for the examination will be cancelled/services terminated, if already appointed.

(g) Candidates, who are appointed on the basis of this examination, shall be on probation for a period of two years and during the period of probation, the candidates would be required to undergo such training or pass such examinations as prescribed by the Controlling Authority. On successful completion of the period of probation, the candidates shall, if considered fit for permanent appointment, be confirmed to their post by the Controlling Authority.

(h) **Drawal of Merit list/Result.** Merit list will be drawn and result declared on the basis of marks obtained in the written test only.

(j) **Resolution of Tie cases.** In case where more than one candidate secures equal marks, tie will be resolved by applying the following methods one after another: - (i) Date of birth, with older candidates placed higher. (ii) with higher marks in Numerical Aptitude then Reasoning & then General Awareness.

7. **How to Apply.** The envelope must be clearly superscribed on the top as **APPLICATION FOR THE POST OF CMD (OG) and CATEGORY "_____"** (i.e. SC/ST/OBC/UR/EWS/ESM/PWDs) and sent by only Registered/Speed Post to below mentioned address along with the following documents :-

The Application should be addressed to:

The Chief Quality Assurance Officer

Chief Quality Assurance Establishment (WEAPON SPARES)

Post Box No. 414, Mumbai - GPO, Pin - 400001

(a) Duly completed application on the prescribed format as per **Appendix 'A I'** typed in English (in A4 size paper) along with admit card as per **Appendix 'A II'** in duplicate.

(b) One self-addressed envelope (size approximately 25 cm x 10 cm) should be enclosed with the application form for sending call letter.

(c) Three recent passport size, one self-signed photograph affixed in appropriate box on the application form and other two self-signed photographs, one each on the admit cards.

(d) The Government Servants are to produce No Objection Certificate from the Employer (**Annexure-I**).

(e) Self attested certificates in respect of Ex-servicemen duly indicating the proof of ex-servicemen issued by competent authority, where applicable (**Annexure-II**).

(f) EWS candidate should attach self-attested photocopy of income and asset certificate issued by a competent authority in the prescribed format.

8. **Nature of Duties in Brief.** Indicative duties and responsibilities of the post are as follows:-

(a) Receiving and dropping of officers for meetings, presentations etc.

(b) Maintenance of upkeep of the car engine.

(c) Maintenance of km log book.

(d) Knowledge of motor mechanics.

Note. The above list of duties is only illustrative and not exhaustive. Section/ Department may add in the list, duties of similar nature, ordinarily performed by officials at this level.

9. **Instructions.**

(a) Only Indian nationals can apply for the above posts.

(b) Application received after the due date (even due to postal delay) will be rejected summarily and no correspondence will be entertained.

(c) The following act/omissions will render a candidate/applicant disqualified/ application rejected: -

(i) Application not in the prescribed format or incomplete or unsigned or undated or improperly filled.

(ii) Furnishing of false, inaccurate, tampered or dubious information.

(iii) Application not accompanied by self-attested copies of certificates/ prescribed certificates in support of age, qualification, caste, disability, discharge etc, as applicable.

(iv) If more than one application is submitted by the candidate for the same post.

(v) Any other deemed irregularity or reason as observed by the Board of Officers.

(vi) Canvassing in any form and/or bringing in any influence, political or otherwise, will entail disqualification.

(vii) In case the candidate is found using unfair means or adopting any malpractice at any stage of selection process.

(viii) If the candidate not found to possess the essential qualification.

(ix) If the Application of candidate who is working in Government Establishment is not received through proper channel with NOC.

(x) Duration of the test can be one day or more. No TA / DA is admissible for the test. Candidates will make their own arrangement for lodging/boarding during the test.

(xi) Though essential qualification for the post is matriculation for CMD(OG), higher qualification, if any, possessed by the candidate is to be disclosed in the application form.

10. The recruitment process can be cancelled/postponed/suspended/terminated without any notice/assigning any reasons, at any stage.

File No. 14034/18/2021-OL (Training)
GOVERNMENT OF INDIA/BHARAT SARKAR

MINISTRY OF HOME AFFAIRS/GRIH MANTRALAYA

DEPARTMENT OF OFFICIAL LANGUAGE/RAJBHASHA VIBHAG

NDCC-II Building, Jai Singh Road, New Delhi-1

Dated : 12/1/22

OFFICE MEMORANDUM

Subject : Filling up of one Post of Director Level-13, Rs. 1,23,100-2,15,900 (pre-revised PB-4, Rs. 37,400-67,000 + 8700) on deputation basis in Central Hindi Training Institute, New Delhi, a subordinate office of Department of Official Language, Ministry of Home Affairs.

The services of one suitable officer are urgently required for appointment to the post of **Director**, in Central Hindi Training Institute, a subordinate office of the Department of Official Language, Ministry of Home Affairs on deputation basis, in the revised pay scale Pay Matrix Level-13, Rs. 1,23,100-2,15,900 (Pre-revised PB-4, Rs. 37400-67000 + Grade pay of Rs. 8700). The qualification and experience required for the post and other details are given in **Annexure-I**. The pay of selected officer will be regulated in accordance with the Department of Personnel & Training Office Memorandum No. 6/8/2009-Estt (Pay-II) dated 17th June, 2010, as amended from time to time.

2. It is requested that the application (in duplicate) in the given proforma (**Annexure-II**) of suitable, willing and eligible officers and who can be spared immediately on selection may be sent to the undersigned **within 60 days from the date of issue of the Office Memorandum or from the date of publication of this Office Memorandum in Employment News/Rozgar Samachar, whichever is later** along with the following documents:-

(i) Clear Photostat copies of their ACR/APAR for the last 5 years i.e. 2015-16 to 2019-20 duly attested by Group 'A' Gazetted Officer.

(ii) Integrity Certificate. (iii) Certificate confirming that no disciplinary/vigilance case is either pending or being contemplated against the officer.

(iv) A statement showing major or minor penalties, if any, imposed on the applicant during the last 10 years. (If no penalty has been imposed, a 'NIL' certificate should be enclosed).

(v) Cadre clearance in respect of the applicant.

3. Application received after the closing date or without the photostat copies of ACR/APAR duly attested by a Group 'A' officer or without recommendation of the concerned office or otherwise found incomplete are liable to be rejected. Officers who apply for the post will not be allowed to withdraw their candidature subsequently. While forwarding the applications, it may be verified and certified that particulars furnished by the officer are correct. It may also be confirmed that in the event of selection for appointment, the officer concerned will be immediately relieved of his duties.

(M. L. WADHWANI)

SPOTLIGHT

Localisation of Sustainable Development Goals

Gram Panchayats Adopt Nine Broad Themes

India is a signatory to the United Nations 2030 Agenda for achieving inclusive, people centric and holistic Sustainable Development through 17 identified goals. The government of India is operating with strategic visioning, prioritization and implementation methods to achieve the Sustainable Development Goals (SDGs) with the motto of "Leave No One Behind" through "Whole of Government and Whole of Society." The SDGs are cross-cutting in nature and a particular SDG can be mapped to many ministries which can be addressed through various schemes. Keeping this aspect in view,

the Ministry of Panchayati Raj has initiated thematic approach through aggregating the 17 SDGs into 9 broad themes for localization of the goals at the grass root level and their attainment through concerted and collaborative efforts of all concerned stakeholders. The initiative has been adopted recognizing the fact that the objectives of national development require the involvement of people, local governments and all stakeholders. The goals need to be translated into policies at the local level, which are relevant and applicable to the communities being served. The 9 broad themes adopted by the Panchayati Raj

- Institutions for achieving the SDGs 2030 are:
1. Poverty Free and Enhanced Livelihoods Village
 2. Healthy Village
 3. Child Friendly Village
 4. Water Sufficient Village
 5. Clean and Green Village
 6. Self Sufficient Infrastructure in Village
 7. Socially Secured Village
 8. Village with Good Governance
 9. Engendered Development in Village

Theme 1

Poverty Free and Enhanced Livelihoods Village

Vision: The goal envisions poverty free Panchayat that ensures there is social protection so that none slip back to poverty. A village where there is growth and prosperity with enhanced livelihoods for all.

Local Goals and Targets: ● Comprehensive coverage of all eligible beneficiaries under livelihood and social protection schemes including PDS, ICDS, etc ● Economic development and employment generation through individual/ collective enterprises ● Ensuring people (poor & vulnerable) are receiving sufficient food at subsidized price all the year ● Increase the income of farmers in engaged in agriculture ● Ensure access to basic services (housing, water and sanitation) ● Reduce poverty by providing wage employment under MGNREGS.

Role of Gram Panchayats: ● Identification of people living with multiple deprivations as per SECC/MA data ● Effective distribution of job cards ● Facilitate registration in PDS ● Income generation through skill training, entrepreneurship development and employment. ● Improvement in land productivity irrigation, better seeds, bio-fertilizers, identification of appropriate new technologies, use of KVKs ● Strengthening SHGs by handholding training and initiate thrift credit activities and accessing bank linkages ● Plan Convergence of GPDP funds and programs.

For implementing the goal, various committees including the Standing Committees working for Poverty Free and enhanced Livelihood and Local Committees / Krishi Vigyan Kendras/ Farmers Friends/Farmer Producer Organizations/Pashu Sakhi/Krishi Sakhi/ Self Help Groups etc have been entrusted with different roles aimed at capacity building of villages by ensuring participation for inclusive planning. The efforts of these committees will be backed up by ASHAs, health workers, doctors, Anganwadi workers, agriculture-related functionaries, literacy workers and teachers, bankers, departments and agencies, Rozgarsevaks, social activists, school management committees (SMC), private sector, non-governmental organizations and local experts.

Enhancing Income Generation Capacity of SHGs & Others (Low Cost - No Cost Activities)

1. FORMATION OF SELF HELP GROUP
 - In the village level
 - SHG Federation at GP Level
2. TO SUPPORT SHG MOVEMENT IN DIFFERENT ISSUES
3. TO ARRANGE SCHEME BASED TRAINING AND CONSTRUCTION OF TRAINING SPACE FOR TRAINEES & SHG MEMBERS
4. PROMOTION OF VARIOUS ECONOMIC ACTIVITIES THROUGH:
 - Bank linkages for loan
 - Entrepreneurship development
 - Focusing on Ease of doing Business for Trade Registration Certificate
 - Market linkage for best return of the produces
5. FACILITATING SPECIAL ECONOMIC ACTIVITY AND THEIR CONVERGENCE WITH FUND AND FUNCTIONARIES AT GP LEVEL

Poverty Free and Enhanced Livelihood Village

Theme 1

Pre-requisites for a Healthy Villages

- Clean Drinking Water
- Sanitation/management of wastewater and waste management
- Good Road connectivity
- Effective Public Distribution System
- Supplementary nutrition for children and pregnant mothers through AWC and schools
- Health infrastructure/telemedicine
- Access to Medical Facilities
- Health Education for leading to healthy life
- Kitchen Gardening

Healthy Village

Theme 2

Theme 2

Healthy Village

Vision: Ensure healthy lives and wellbeing for all at all ages.

Local Goals and Targets: ● Eliminate stunting and wasting ● Eliminate anaemia amongst adolescent girls and women ● Low cost, highly nutritious and locally procured cereals, vegetables, fruits, eggs etc. ● Preventive and curative measures for communicable diseases ● Zero maternal deaths, child deaths under 5 years ● Provision for medical care and health facilities for all.

Role of Gram Panchayats: ● Awareness on age at marriage and pregnancy ● Adolescent health (Nutrition, counselling, use & safe disposal of sanitary napkins) ● Complete immunization of mother and children ● Prevention and treatment of communicable diseases (TB, HIV etc). Prevention and treatment of non-communicable diseases / lifestyle diseases (diabetes, cancer etc) ● Old-age care support and Nutritional to children and women ● Issues related to mental health and disabilities ● 24x7 Helpline at Panchayats ● Promotion and use of AYUSH.

Theme 3

Child Friendly Village

Vision: To ensure that all children are able to enjoy their rights for survival, development, participation and protection to reach their full potential.

Local Goals and Targets: ● Ensure Healthy Children ● 100% enrolment in the school ● Reduction in child marriage cases ● No trafficking cases 100% child labor free ● Ensure protected environment from all kinds of violence against children ● Ensure equal access to education for persons with disabilities ● Ensure quality of education through the PTAs/SMCs.

Role of Gram Panchayat: ● Ensure quality nutritious food to all children aged under five years ● Monitor the services of the ICDS & Health Centers ● Nutri Garden in the AWCs & schools ● Organize health camp to monitor the stunted growth among children ● Ensure routine immunization of children ● Ensure inclusive and quality education ● Ensure Safe Drinking Water and hand-washing unit in school ● Monitor quality of Mid-Day Meal

Survival

- Malnourished
- Mortality Rate
- Fully immunized
- Birth Registration
- ANC / PNC Checkup

Development

- Enrolment
- Retention
- Inclusive Education
- Availability of teacher
- Playground
- Safe Drinking Water

Child Friendly

Theme 3A

Continued on page 38

Continued from page 37

Protection

- Migrated children
- Missing / Trafficked Children
- Child labour
- Child Abuse
- Engaged in hazardous work in the locality
- Child marriage

Participation

- Participation in different development activities
- Bal Sabha
- Involvement of adolescent group (Bal Mitra) in different social activities

Child Friendly

Theme 3B

- Ensure protection from all violence & abuses
- Ensure no incidences of child marriage & trafficking
- Ensure safe and protected
- Reduce the cases of child labour and track the migration
- Organize Bal Sabha to ensure children's participation in development activities
- Organize Bal Sabha to ensure children's participation in development activities.

The goals under the theme will be executed by the Standing Committees working for child development, local committees working for child development, as well as other local bodies such as the Village Level Child Protection Committee / School Management Committee / Parent Teacher Association / Mother Teacher Association / Anganwadi Monitoring Committee etc.

Support will also be provided by ICDS supervisors, ASHAs, doctors, Anganwadi workers, literacy workers, teachers, health workers, Police, Child Protection officials, sports officials and associations, Self-Help Groups (SHGs) and their federations, NRLM CRPs, Rozgarsevaks, school management committee (SMC), local experts, social activists, NGOs, Community Based Organizations, etc.

Theme 4

Water Sufficient Village

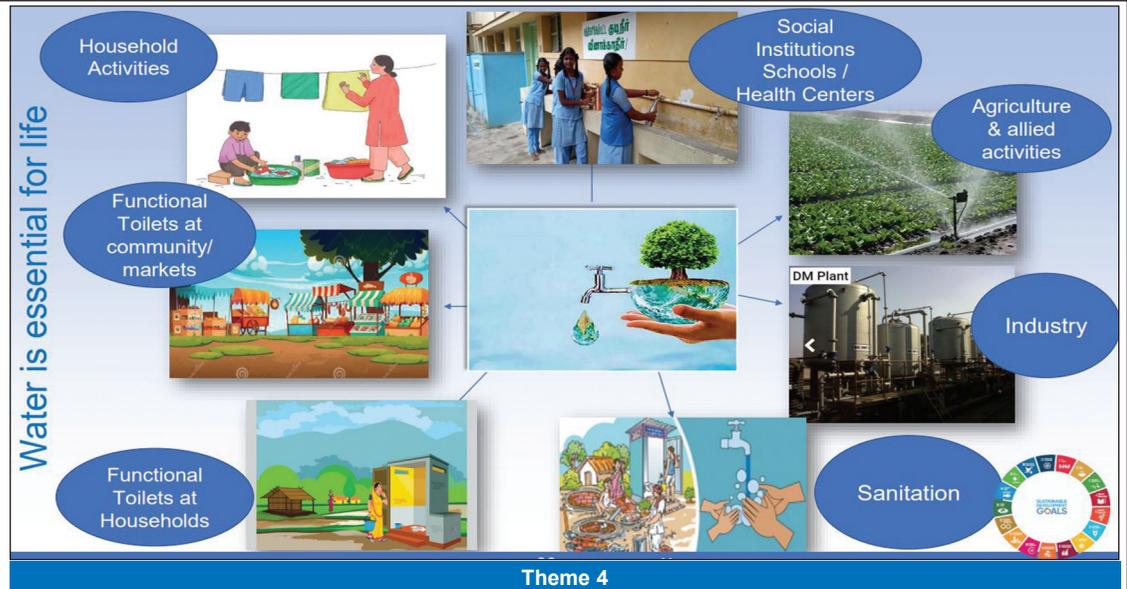

Vision: A village with Functional House Tap Connections to all, with targeted standard of quality water supply, good water management and abundant water availability for agriculture and all needs, and conserving its water ecosystem.

Local Goals and Targets:

- Access to adequate clear water to all and potable water facilities
- Access to sanitation facilities in the villages
- Ensure 100% usage of HHL
- Develop mechanism on grey water treatment & purification
- Ensure 100% ODF
- Address ground water depletion, arsenic contamination, rainwater harvesting and groundwater recharge
- Maintain ecosystem through conservation of natural resources.

Role of Gram Panchayat:

- Educate all households on key aspects of usage and management of water and sanitation assets
- Water Sufficient Village Ensure adequate and functional toilet facilities for boys and girls in schools and Anganwadi
- Ensuring maintenance of toilet of public places including those in markets and Gram Panchayat premises
- Select appropriate technology for water supply and grey water management by using technology like magic pits, kitchen gardening
- Liaise with respective agencies for ensuring adequate water supply, potable drinking water and water analysis and measurements

- People's committee formation and their capacity building for managing the assets existing and being created. Promoting modern agriculture and water use technologies
- Safeguarding water bodies and monitoring water quality
- Plan for operation and periodic maintenance of drinking water supply infrastructure.

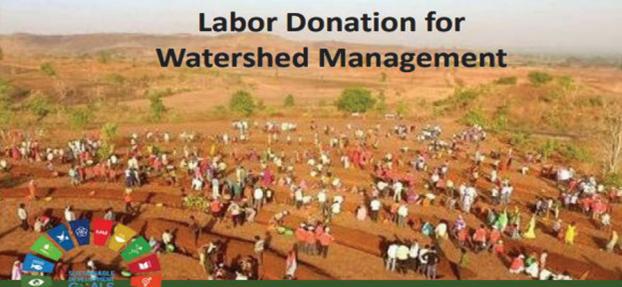

Low Cost - No Cost Activities

Group Meeting

Collection of Waste From Households

Labor Donation for Watershed Management

Clean & Green Village

Theme 5

Theme 5

Clean and Green Village

Vision: Creating a village for the future of our children, which is lush and green with nature's bounty, using renewable energy, clean, protecting environment and climate resilient.

Local Goals & Targets:

- 100 % usage of non-renewable energy
- 100 % ODF
- Ensure greenery by plantation and nursery bed
- Reduce the use of firewood
- Ensure access to energy to all for lighting, house hold devices, cooking, irrigation
- Ensure conservation & maintenance of bio-diversity and eco-system.

Role of Panchayats:

- Promote use of solar energy
- Efficient distribution of electricity
- Effective liquid and solid waste management System
- Harnessing local water resources
- Community-based management of natural resources including forests, water bodies and sacred groves
- Planting of natural vegetation in highslope areas, barren and other common lands and alongside roads
- Promote organic Farming and Sustainable fishing
- Encourage community ponds for fisheries
- Empower the standing committee / working committee constituted for restoration of natural conservation
- Prohibit usage of single use plastics.

Theme 6

Self Sufficient Infrastructure in Village

Vision: To achieve Self-sufficient Infrastructure and ensure access for all to adequate, safe and affordable housing and basic services.

Local Goals and Targets:

- Establishment of playgrounds
- Drinking Water
- Toilets
- Quality
- Infrastructure for Schools, AWC, Health Centre, CSC
- Ensure all weather connectivity roads, solar street lights and community solar tree
- Ensure pucca house for all
- Ensure proper covered drainage system.

Roles of Panchayats: Assess and plan for

- water needs
- solid and liquid waste being generated - (biodegradable and non-biodegradable) and its management
- Self-sufficient Infrastructure Ensure functional toilets in schools, Anganwadis and public places
- Assess the various needs of energy - for cooking, heating, lighting, irrigation, household food processing, industries, commercial establishments like shops and hotels
- Select appropriate technology choice for WASH services
- Assess the felt needs for infrastructure through participatory surveys
- Form people's committees for managing the assets created
- Educate all households on the key aspects of usage and management of water and sanitation assets
- Identify appropriate schemes for becoming self-sufficient infrastructure villages.

Local Goals and Targets

Bus Stand

Anganwadi Center

Culvert Bridge

Gram Panchayat Bhawan

Self-Sufficient Infrastructure

Theme 6

Continued from page 38

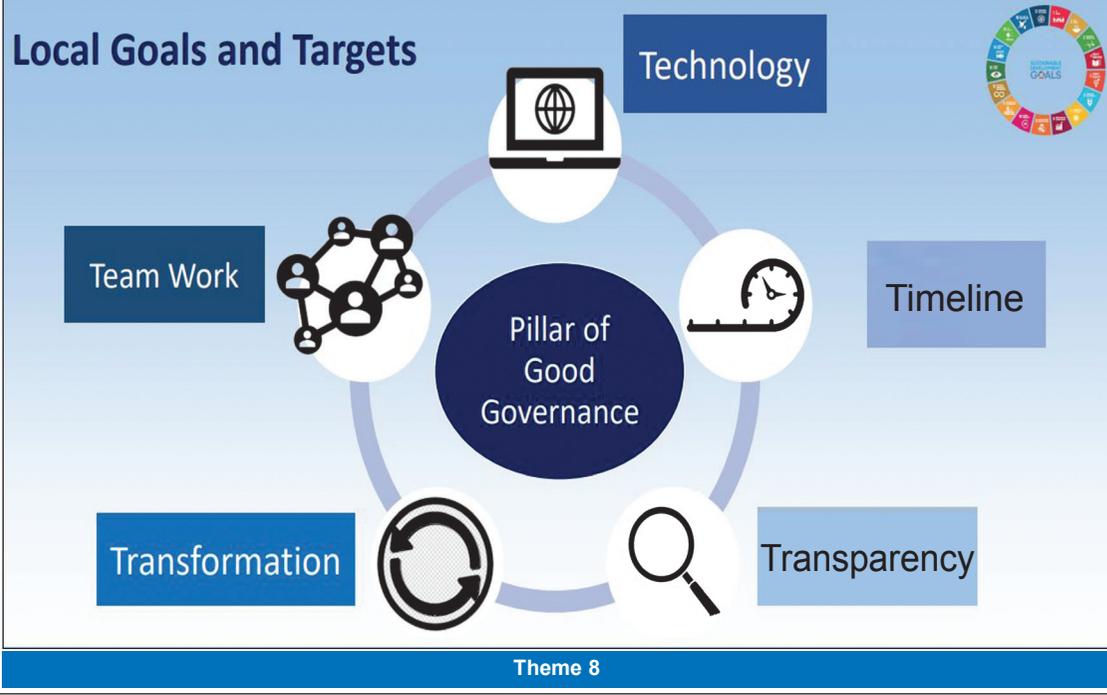

Theme 7

Socially Secured Village

Vision: Every person in the village must feel cared for and all eligible must be covered by social security systems.

Local Goals and Targets: • Improve living standards of the BPL HHs • Ensure social protection schemes • Enrolment of children and pregnant women under ICDS • Providing productive employment • Appropriate infrastructure • Reduced inequalities and all forms of discrimination.

Role of Gram Panchayat: • Facilitate registration in PDS • Develop criteria for identification of the poor, destitute and vulnerable • Promote information about various schemes for poor and vulnerable groups • Monitor the services • Strengthen Gram Sabha for ensuring responsive, inclusive and participatory representation • Ensure the timely access of the services to the citizen • Plan rehabilitation for the differentlyabled person • Ensure safe & secure environment for women and girl children • Support rehabilitation of the victim and ensure legal action • Ensure inclusive and quality education • Ensure quality infrastructure in the schools & health centers • Ensure complete registration of all births • Ensure equal work opportunities • Facilitate to generate employment.

Theme 8

Village with Good Governance

Vision: Ensuring benefits of development under various schemes and responsive service delivery to all residents of GP through Good Governance.

Role of Panchayats: • Hub of activities for governance • Administrative work • Service delivery • Common Service Center • Colocate line departments • Utilization of local skilled/semi-skilled youth • For sharing information • Enhanced service delivery through ICT thereby improving quality of life • Organize Capacity Building • Convergence with other Scheme committees • Effective Delivery of Citizen Charter • Developing Grievance Redressal Mechanism • Holistic Panchayat development plan with people's participation • Covering social, economical, environmental aspects • Approval in Gram Sabha.

The execution of the goals under the theme will be supported by anganwadi workers, Rozgar Sevaks, literacy workers and teachers, ASHAs, village-level Social Auditor, National Rural Livelihood Mission (NRLM) Community Resource Persons (CRPs), Panchayat Executive Officer, livestock workers, officials of different departments, Self-Help Groups (SHGs), Gram Panchayat Level Federations, Village Water, Sanitation & Nutrition Committee and the Panchayat Standing Committee etc.

Theme 9

Engendered Development in Villages

Vision: To achieve gender equality, provide equal opportunities, empower women and girls in a safe environment.

Local Goals and Targets: • Reduce crimes against women and girls • Ensure safety of women in all public and private spheres • Improve participation of women in socio-political, economic activities and participation in community-based organizations • Equal wages for equal pay to the women. • Ensure quality nutritious food to all girl children aged under five years • To facilitate banking service for woman • Reduce the maternal mortality ratio • Create environment for total enrolment and retention of girl children in school.

Role of Gram Panchayat: • Ensure Mahila Sabha are conducted in the GP • Encourage participation of women in Gram Sabha • Ensure safe and secured environment • Create awareness and provide better health care facilities to women and girl child • Ensure equal access to women in the implementation of all development programs • Ensure quality nutritious food to pregnant women, girl child aged under five years and adolescent girls • Ensure that all girls complete free, equitable and quality primary and secondary education • Enroll poor women in SHGs and create opportunities for economic development activities • Ensure equal access for all women to affordable and quality

Low Cost No Cost Activities

technical, vocational and tertiary education • the implementation of all development programs • Earmark adequate funds in the budget for women Ensuring equal wages for equal work. development • Ensure equal access to women in

FAST TRACKING DIGITAL EMPOWERMENT ...

The National Broadband Mission aims to:

- a) address policy and regulatory changes required to accelerate the expansion and creation of digital infrastructure and services;
- b) create a digital fiber map of the Digital Communications network and infrastructure, including Optical Fiber Cables (OFC) and Towers, across the country;
- c) work with the Department of

Space, to make available adequate resources required for extending connectivity to far flung areas of country through satellite media;

- d) encourage and promote adoption of innovative technologies for proliferation of broadband especially by the domestic industry;
- e) develop a Broadband Readiness Index (BRI) to measure the availability of

digital communications infrastructure and conducive policy ecosystem within a State/UT;

- f) promote direct and indirect employment as a result of development of Digital Communications infrastructure across the country and through the digital economy.

Prime Minister's Wi-Fi Access Network Interface (PM-WANI)

To accelerate proliferation of Broadband services through public Wi-Fi networks in the

country, the Government in 2020 approved setting up of Public Wi-Fi Networks by Public Data Office Aggregators (PDOAs) and Public Data Offices (PDOs). This framework takes forward the goal of NDCP-2018 of creating a robust digital communications infrastructure across India. Proliferation of Broadband Services through public Wi-Fi networks is a step towards Digital India and consequential benefits thereon. This will encourage technology entrepreneurs to develop and deploy

Wi-Fi technology solutions triggering Make in India. This new eco system will also enable new business models for shopkeepers as potential PDOs to provide high speed broadband services. No License Fee for providing broadband services using public Wi-Fi Hotspots will encourage its proliferation and penetration across the length and breadth of the country.

NATIONAL

PM Successfully Concludes Visit to Three European Countries

Prime Minister Shri Narendra Modi returned to Delhi on 5th May after concluding his successful visit to Germany, Denmark and France. It was the Prime Minister's first visit abroad in 2022. In Berlin, Shri Modi held bilateral talks with Federal Chancellor of Germany Olaf Scholz and the two leaders co-chaired the sixth edition of the India-Germany Inter-Governmental Consultations. It was the Prime Minister's first IGC with Chancellor Scholz, and also the first such Government-to-Government consultations of the new German government, which assumed office in December last year. On the second leg of the visit, Shri Modi travelled to Copenhagen and participated in the 2nd India-Nordic Summit hosted by Denmark, along with Prime Ministers of Denmark, Iceland, Norway, Sweden and Finland. The bilateral component of the visit included talks with Danish PM Mette Frederiksen as well as an audience with Queen Margrethe-II. The visit provided both sides an opportunity to review the progress, as well as examine ways to further expand the multifaceted cooperation. The Summit focused on subjects like post-pandemic economic recovery, climate change, innovation and technology, renewable energy, the evolving global security scenario and India-Nordic cooperation in the Arctic region. On his return journey Shri Modi briefly stopped over in Paris. He met French President Emmanuel Macron and conveyed congratulations in person just ten days after his re-election. Prime Minister Modi invited President Macron to visit India at his earliest convenience to hold detailed discussions on the areas of cooperation outlined during the visit and to finalise the modalities of realising the goals thus identified.

National Behaviour Change Communication Framework for Garbage Free Cities

Swachh Bharat Mission-Urban 2.0, under the aegis of the Ministry of Housing and Urban Affairs, has launched the 'National Behaviour Change Communication Framework for Garbage Free Cities' to strengthen the ongoing Jan Andolan for 'Garbage Free Cities'. The initiative shall serve as a guiding document and blueprint for States and Cities to undertake large scale multimedia campaigns along with intensive and focused inter-personal communication campaigns. The framework focuses on intensifying messaging around the key focus areas of source segregation, collection, transportation, and processing of waste, plastic waste management, and remediation of legacy dumpsites to truly transform the urban landscape of India.

Vinay Mohan Kwatra Assumes Charge as New Foreign Secretary

Senior IFS officer Vinay Mohan Kwatra assumed charge as India's new Foreign Secretary on 1st May 2022. He succeeded incumbent Harsh Vardhan Shringla. A 1988 batch IFS officer, Mr. Kwatra was earlier serving as India's Ambassador to Nepal.

India Chosen as 'Country of Honour' at Cannes Film Market

India is the official Country of Honour at the Marche' Du Film, organized alongside the 75th edition of Cannes Film Festival which is taking place from 17th May to 28th May. This comes as India celebrates its 75th year of Independence whereas Cannes Film Festival is marking its 75th anniversary. This is for the first time that Cannes will have an official Country of Honour. However, it will continue annually with different nations in the future too. According to Union Minister for Information and Broadcasting Shri Anurag Thakur, the Country of Honour Status ensures India's presence as Focus Country with spotlight on India, its cinema, its culture and heritage. India is also a Country of Honour at the Cannes Next, under which 5 new Start Ups would be given an opportunity to pitch to the Audio-Visual Industry. Ten professionals will participate on the Animation Day networking. India has been given an opportunity to pitch 5 selected movies at the "Goes to Cannes Section".

Nominations for Padma Awards-2023 Open till 15th September

The nominations for Padma Awards-2023 will remain open till 15th of September this year. The Padma Awards, namely, Padma Vibhushan, Padma Bhushan and Padma Shri, are amongst the highest civilian awards of the country. Home Ministry said that online nominations and recommendations for the Padma Awards-2023 have opened on 1st of May, which will be announced on the occasion of Republic Day next year. The award seeks to recognize work of distinction and is given for distinguished and exceptional achievements and service in all fields of Art, Literature and Education, Sports, Medicine, Social Work, Science and Engi-

Padma Vibhushan Padma Bhushan Padma Shri

neering, Public Affairs, Civil Service, Trade and Industry. The Ministry said, government is committed to transform the Padma Awards into People's Padma.

INTERNATIONAL

India-UAE Comprehensive Economic Partnership Agreement Comes into Force

The historic India-UAE Comprehensive Economic Partnership Agreement (CEPA) which was signed between the two nations on 18 February 2022, officially entered into force on 1st May 2022 with the flagging off the first consignment of goods comprising of Jewellery products from India to UAE. Overall, India will benefit from preferential market access provided by the UAE on over 97 % of its tariff lines which account for 99% of Indian exports to the UAE in value terms particularly from labour-intensive sectors such as gems and jewellery, textiles, leather, footwear, sports goods, plastics, furniture, agricultural and wood products, engineering products, pharmaceuticals, medical devices, and automobiles. As regards trade in services, Indian service providers will have enhanced access to around 111 sub-sectors from the 11 broad service sectors. CEPA is expected to increase the total value of bilateral trade in goods to over US\$100 billion and trade in services to over US\$ 15 billion within five years.

ECONOMY

India's Services Exports Set a New Record of US\$ 254.4 Billion

India's services exports has set a new record of US\$ 254.4 billion in the financial year 2021-2022. The new record achieved in 2021-22 beats the previous high of US\$ 213.2 billion in 2019-20. Also, services exports hit an all-time monthly high of US\$ 26.9 billion in March 2022. As per the latest available data, telecommunications, computer, and information services, other business services and transport were the top contributors in services exports during April-December 2021.

India's Pharma Exports Grow By 103% since 2013-14

India's pharma exports witnessed a growth of 103 percent since 2013-14 from Rs 90,415 crore in 2013-14 to Rs 1,83,422 crore in 2021-22. The exports value achieved in 2021-22 is the pharma sector's best performance ever. It is a remarkable growth with exports growing by almost US\$ 10 billion in 8 years. The pharma exports in 2021-22 sustained a positive growth despite the global trade disruptions and drop in demand for COVID-related medicines.

Eight Core Industries Post Robust Growth during Last Fiscal

The Index of Eight Core Industries (ICI) posted robust growth of 10.4 percent during 2021-22 fiscal as compared to the corresponding period of previous fiscal. ICI measures combined and individual performance of production in selected eight core industries viz. Coal, Crude Oil, Natural Gas, Refinery Products, Fertilizers, Steel, Cement and Electricity. The eight core industries comprise 40.27 percent of the weight of items included in the Index of Industrial Production (IIP).

SPORTS

Khelo India 2022 University Games Concludes with Jain University Being Crowned Champions

A glittering closing ceremony on 3rd May drew curtains on yet another memorable edition of the Khelo India University Games 2021 which witnessed the country's young and aspiring athletes use the platform to bring laurels to their respective universities. Union Minister for Home Affairs and Cooperation, Shri Amit Shah, chief guest for the closing ceremony, presented the overall champion's title to hosts Jain Deemed-to-be University who ended their campaign with an impressive 20 gold, 7 silver, and 5 bronze medals. Lovely Professional University, Punjab won 17 gold medals, 15 silver, and 19 bronze. Defending Champions Panjab University finished third in the medal tally with 15 gold, 9 silver, and 24 bronze medals.
